## 2. Правила применения тарифов:

2.1. Тарифы, доплаты и сборы действуют на дату перевозки груза.

2.2. При перевозке легковесного (объемный вес больше фактического) груза, объем которого превышает 0,006 куб.м. на 1 кг брутто, плата взимается с объемного веса, который рассчитывается по формуле:

$$(\text{длина (см)} \times \text{ширина (см)} \times \text{высота (см)}) / 6000 \text{ куб.см./кг}$$

2.3. Округление платного веса производится до целого килограмма в большую сторону.

2.4. В случае если физический вес, оплачиваемый вес, габариты или объем груза, заявленные в авианакладной окажутся больше фактически установленных при размещении груза на терминале, авиакомпания будет принимать к расчету данные, указанные в авианакладной, отправленной на рейсе вместе с грузом. Ответственность за корректность данных в авианакладной полностью лежит на отправителе или его уполномоченном агенте. Грузовой терминал в аэропорту не несет ответственности за корректность данных в авианакладной. В случае если физический вес, оплачиваемый вес, габариты или объем, заявленные в авианакладной окажутся меньше фактически установленных при размещении груза на терминале, авиакомпания будет применять к расчету фактические данные груза. Ответственность за корректность данных в авианакладной полностью лежит на отправителе или его уполномоченном агенте. Грузовой терминал в аэропорту не несет ответственности за корректность данных в авианакладной.
